SKILLS

Programming

C · C++ · JavaScript · TypeScript · Python · HTML / CSS · Algorithms

Web development

Next.js · React · Tailwind CSS · Supabase · PostgreSQL · Prisma

Tools

Git · GitHub Actions · Vercel · LLM APIs

Engineering

Electrical installation · Reading electrical schematics · Electrical equipment maintenance

Bekasyl Karshygauly

Junior Software Engineer · Automation & Web

Atyrau, Kazakhstan · bekasyl-karshygauly.github.io

PROFILE

Second-year Automation and Production Control student (GPA 3.92 / 4.00) with an electrical technician qualification and a college diploma with honors. Alongside university I study C, C++ and JavaScript at IT AQL ACADEMY and qualified for the ICPC 2026 Regional Contest. I build educational web products with Next.js and TypeScript; my flagship is Math Universe, an interactive trilingual mathematics platform. My goal is to bring programming into industrial automation (OWEN programmable relays, SCADA).

EXPERIENCE

09.2026 – present

Founder & Developer

Math Universe · personal project

- Interactive mathematics platform in Kazakh, Russian and English: 5 sections, every lesson in three levels of depth.
- Graphs and 3D visualizations, calculators, quizzes, notes and an AI helper; authentication with Supabase.
- Migrated the project from a single HTML page to Next.js + TypeScript, deployed to GitHub Pages with GitHub Actions.
- Roadmap: present to the university by the end of 2026, launch nationwide in spring 2027.

Next.js · TypeScript · Supabase · KaTeX

bekasyl-karshygauly.github.io/math-universe ↗

30–31 Oct 2026

Developer · team Lunnary

Decentrathon 6.0 · Grand Mobile case

- Built Support Copilot with a friend in two days: an AI assistant that triages player tickets.
- Detects language, category and priority, flags spam and duplicates, and drafts a reply in the player's language citing the exact game rules (RAG).
- Case data: over 118,000 tickets in 6 languages.

Python · FastAPI · scikit-learn · RAG

Volunteer

AI HUB club · Atyrau Oil and Gas University

- Helped run the club's competitions.
- Regular player at SAFI QUIZ, a university quiz held every two weeks.

LANGUAGES

Kazakh — Native

Russian — Fluent

English — A2 · Pre-Intermediate

ADDITIONAL

- Studying at university and IT AQL ACADEMY at the same time
- Interests: competitive programming, industrial automation, education technology
- State grant holder

EDUCATION

2025–2029

Safi Utebayev Atyrau Oil and Gas University

BSc · Automation and Production Control (6B07101)

- GPA 3.92 / 4.00 · Spring 2026: 4.00
- State grant; state scholarship three semesters in a row

2025–2029

IT AQL ACADEMY

Programming: C, C++, JavaScript · 4-year program

- Competitive admission: logic and coding test, then an interview
- Monthly exams; stipend based on results

2021–2025

Caspian Multidisciplinary Higher College

Electrical Equipment · Electrical Technician

- Diploma with honors
- WorldSkills-standard demonstration exam instead of a thesis defense: 99 / 100 points (honors students only)

PROJECTS & ACHIEVEMENTS

ICPC Kazakhstan Qualification 2026

Qualified to the Regional Contest · 18 Oct 2026

Qualification round of the International Collegiate Programming Contest.

Qarzhy

Next.js · PostgreSQL · Prisma

Personal finance web app in tenge: income and expenses, charts, savings goals and an AI assistant.

qarzhy-nu.vercel.app ↗

GPA 4.00 · Spring 2026

Atyrau Oil and Gas University

Every course graded A, four of them at 100/100: Mathematics 2, Physics 1, Kazakh language, Foreign language.

CERTIFICATES

ICPC Certificate of Achievement — 18 Oct 2026

The 2026 ICPC Kazakhstan Qualification · Qualified to Regional Contest

WorldSkills Skills Passport · 99 / 100 — 18–20 Jun 2025

Demonstration exam · Electrical Installation · WorldSkills Kazakhstan, TALAP

Diploma with Honors — 2025

Caspian Multidisciplinary Higher College · Electrical Technician
